TMEIC to Exhibit at the Japan Pavilion of IETF 2015
Major Trade Show Related to Machine Technology in India

Toshiba Mitsubishi-Electric Industrial Systems Corporation (hereinafter, "TMEIC"; President & CEO Kiyotaka Machida) will participate in International Engineering & Technology Fair (IETF 2015), which is recognized as India's major trade show related to machine technology. TMEIC will currently cooperate with its local Indian subsidiary to take part in the Japan Pavilion organized by Japan External Trade Organization (JETRO). The Company plans to display various items at its booth with a focus on rotating machinery, power electronics and PV inverter (PV-PCS).

At this year's IETF marking the 21st occasion, Japan will participate as a partner country, in which JETRO will comprehensively introduce Japanese technology in the areas of environment, energy, automobile, railroad, infrastructure and other general machinery during the exhibition period. A total of 45 companies and organizations are expected to exhibit not only to enhance their presence but also support Japanese companies and Japanese-affiliated companies to introduce their products and promote business negotiations in an effort to expand business in India.

While TMEIC has a proven track record in various industrial system fields centered on metal industry in India since its establishment in 2003, the Company has also been working to accelerate local business expansion through various measures such as establishing a new company in 2014 in line with the expansion of motor, drive and solar power generation markets. Specifically, TMEIC boasts overwhelming market share in the large-capacity PV inverters in Japan and is also taking initiatives in the global market as a leading company centering on North America and China. TMEIC will continue its business expansion in India as one of the markets with high potential in the future.

1. Exhibition name	21st International Engineering & Technology Fair (IETF 2015) Hosted by Confederation of Indian Industry (CII) * Visit the official website for further details. http://www.ietfindia.in/
2. Location	Venue: Pragati Maidan Address: India Trade Promotion Organization, Pragati Bhawan, Pragati Maidan, New Delhi-110 001
3. Exhibition period	3 days from February 26 through to February 28, 2015
4. Japan Pavilion	Japan Pavilion (Organized by JETRO) *Visit the following website for further details. http://www.jetro.go.jp/events/item/20140725218/
5. TMEIC booth	Booth No. 37 inside Japan Pavilion (Hall-14, Partner Country Hall)
6. TMEIC product display	(1) Highly reliable and compact TM-21G motor series (2) High-performance and high-voltage TMdrive-MVe2 inverter series (3) PV inverters and other

In order to respond to the needs of manufacturing sites that are the bases for supporting our society, TMEIC always sets its eyes on the future of industry, society and the environment as an industrial system integrator striking a balance between the development of society and a beautiful global environment. TMEIC will contribute to manufacturing and environmental management with the leading-edge technologies based on its core technologies of rotating machinery, which becomes a driving force of factories and plants, power electronics, which converts and controls electrical power, and engineering, which enables to plan and realize overall plant system.
